

# Changes to Instanta Orders Codes

## Why are the codes changing?

The convention of the order codes have changed to fit inline with the rebrand of our product range and to make them easier to relate to.

Each code now has a logical model number matrix. For example 1501F now becomes CTS10F

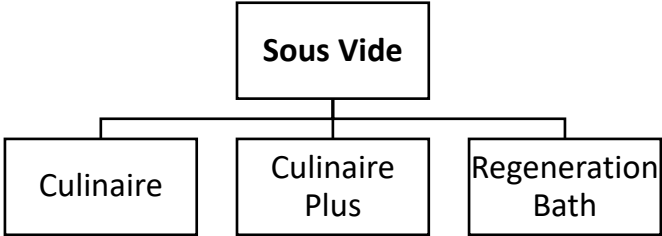

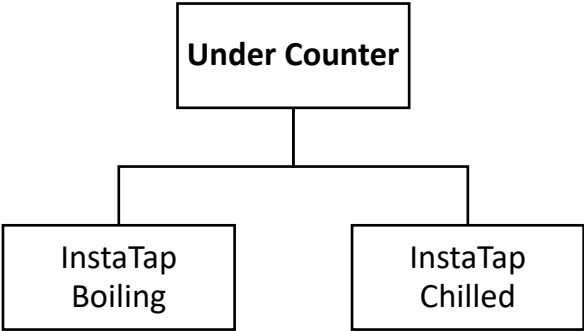

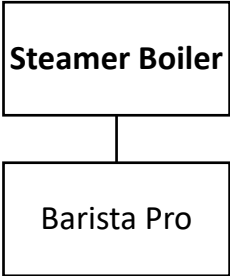

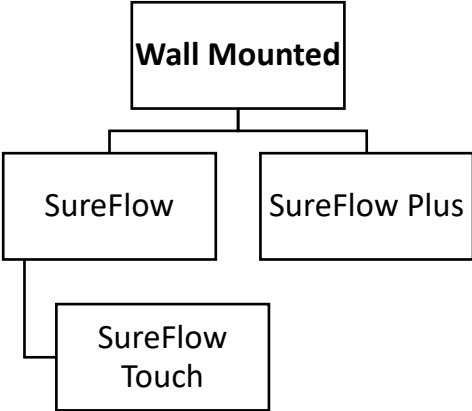

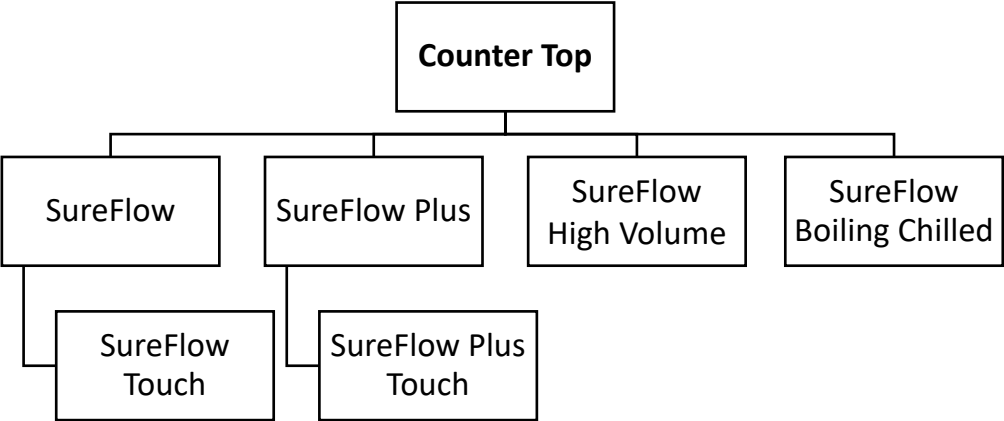

CT	S	10	F
Type of Boiler	Product Range	Ltr Draw Off	Anomaly

This now becomes the Counter Top SureFlow 10Ltr Filtered

## **Below is a breakdown of the model matrix:**

<b>CT</b> – Counter Top  <b>S</b> – SureFlow <b>SP</b> – SureFlow Plus  <b>V</b> – High Volume <b>BC</b> – Boiling Chilled <b>F</b> – Filtered <b>H</b> – High Tap <b>T</b> – Twin Tap <b>SL</b> – Slim Line <b>PB</b> – Push Button  <b>/6</b> – 6KW <b>/9</b> – 9KW <b>/18</b> – 18KW	<b>SW</b> – Steam & Water  <b>/6</b> – 6KW	<b>UC</b> – Under Counter <b>B</b> – Boiling <b>C</b> – Chilled  <b>H</b> – High Tap <b>T</b> – Twin Tap	<b>WM</b> – Wall Mounted  <b>S</b> – SureFlow <b>SP</b> – SureFlow Plus  <b>PB</b> – Push Button <b>W</b> – White  <b>/6</b> – 6KW	<b>SV</b> – Sous Vide  <b>SVP</b> – Sous Vide Plus  <b>RB</b> – Regeneration Bath
